

Nano-Tex® with Stiletto. High-Heels, Higher Protection.

Nano-Tex with Stiletto provides any textile extreme puncture resistant protection from bachelorette parties and girls night out. We don't want to stop the ladies that love to dance on furniture with those high-heeled shoes, we just want to make it possible all while protecting the cushion and the daring diva that's prone to take a spill!

Durable, Breathable Barrier

Strengthens Fabric

Applications

BENEFITS

- Fabric aggressively repels liquids and stains
- Liquids can be blotted off the fabric face preventing staining and penetration
- Helps prevent staining of fabric from dirt and spills including coffee, soda, wine, mustard, salad dressing, blood, urine and iodine
- Can be easily cleaned with all cleaning agents including detergents, solvents or 15% diluted bleach (fabric appropriate)

- Maintains natural hand
- Highly breathable and comfortable
- Lasts the life of the fabric
- Durable to laundering; tested up to 50 washings

- Can keep fabrics that are inherently fire retardant, FR Neutral with accurate knowledge of fiber content

- Cushions, fabric and furniture are protected for the life of the product
- The backing provides increased protection against puncturing by 55% on average
- Breathability offers comfort for extended seating periods compared to vinyl, fabrics with excessive backings or that are over-processed and do not breathe

- Improves seam strength and tearing strength significantly

- For stadiums or hospitality and entertainment environments
- Primarily used as a treatment for seating fabric in high use applications, especially environments where sharp objects can come in contact with upholstery
