

Nano-Tex®

Permanent protection on a nano level.

The first high-performance nanotechnology that builds permanent spill and stain resistance into the molecular structure of the fabric. Nano-Tex protects your design, your installation, your client. Any fabric, any application, in any space.

FEATURES

Spill / Stain Prevention

Flammability

Applications

Environmental Considerations

BENEFITS

- Fabric aggressively repels liquids and stains
 - Liquids can be blotted off the fabric face preventing staining and penetration
 - Helps prevent staining of fabric from dirt and spills including coffee, soda, wine, mustard, salad dressing, blood, urine and iodine
 - Can be easily cleaned with all cleaning agents including detergents, solvents or 15% diluted bleach (fabric appropriate)
-
- Maintains natural hand
 - Highly breathable and comfortable
 - Lasts the life of the fabric
 - Durable to laundering; tested up to 50 commercial washings
 - Can significantly improve abrasion
-
- Can keep fabrics that are inherently fire retardant, FR Neutral with accurate knowledge of fiber content
-
- For healthcare, hospitality, educational, corporate, entertainment and residential interiors
 - Used for cubical, curtains/drapery, seating, panel fabrics, bedding and wallcoverings
 - Can be combined with other fabric finishes such as antimicrobial, FR treatments and all backings
-
- Does not affect the recyclability of the product
 - No Formaldehyde. No PFOA. No VOC's
